SAFIDDINE ABDELFETAH

Backend-Focused Full-Stack Developer | Node.js | React | Applied AI

Médéa, Algeria | +213 659 235 442 | fettahsafi.6@gmail.com

LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Backend-focused full-stack developer building production software for a multi-service travel-commerce platform, specializing in third-party API integrations, payment and booking workflows, and secure real-time services. Completed Master's research on LLM-agent systems (LoRA fine-tuning, RAG, model evaluation), delivered as a mobile app and web dashboard.

TECHNICAL SKILLS

- **Backend & APIs:** Node.js, JavaScript, TypeScript, Express.js, REST APIs, Socket.IO, API integration, layered architecture
- **Frontend & Mobile:** React, Next.js, React Native, Redux, HTML, CSS
- **Applied AI & LLM:** LLM agents, LoRA fine-tuning, RAG, LangChain, FAISS, Sentence Transformers, Hugging Face, model quantization, prompt engineering, model evaluation, Python
- **Databases:** PostgreSQL, Prisma ORM, MongoDB, Redis, Supabase, SQL
- **Security & Integrations:** JWT, OAuth 2.0, encryption, rate limiting, SATIM payments, AI vision APIs, Firebase, SendGrid, Google Maps
- **Delivery:** Docker, Docker Compose, Git, GitHub Actions, CI/CD
- **Languages:** Arabic (Native), French (Professional), English (Professional)

PROFESSIONAL EXPERIENCE

Backend Developer | **Fennec Booking** *Oct 2025 – Present*

- Develop and maintain backend services for a multi-vertical travel-commerce platform (flights, hotels, transfers, packages, e-visas, eSIMs, insurance, ferries) serving 10,000+ users across web and mobile clients.
- Integrate and normalize multiple third-party travel providers behind unified booking and payment flows; implement SATIM payment processing with pricing, commission, wallet, and reconciliation logic.
- Build real-time support features (Socket.IO, Redis) and background jobs with retry and recovery handling; secure APIs with JWT/OAuth, encrypted data handoffs, rate limiting, and server-side price validation.
- Integrated an AI vision service for passport data extraction; support releases via containerization and CI/CD.

AI Research — Master's Dissertation | **Yahia Farès University of Médéa** *2024 – 2025*

- Co-developed an LLM-agent platform for psychological assessment (agents for query formatting, therapeutic dialogue, sentiment analysis, and clinical report generation) with a React Native patient app and Next.js clinician dashboard on Supabase.
- Fine-tuned LLaMA 3.2 with LoRA on psychotherapy datasets, built a RAG pipeline (LangChain, FAISS, Sentence Transformers), and used a quantized Mistral 7B model for report generation.
- Compared fine-tuned and base models using cosine similarity, LLM-based judging, and accuracy, precision, recall, and F1.

Freelance Full-Stack Developer | **Self-Employed** *2022 – 2023*

- Delivered MERN-stack websites for independent clients, including a book-printing shop, a library-management system, and a clothing e-commerce site, covering UI development, backend APIs, and database design.

SELECTED PROJECTS

FMD STORE | Live e-commerce storefront | fmd-store.vercel.app

- Built an Arabic-first, cash-on-delivery online store with product galleries, bundle pricing, and a checkout flow.

DZ-AutoImport | Next.js | dz-autoimport.vercel.app

- Built a trilingual (French, Arabic with RTL, English) prototype showroom for imported vehicles: model catalog, brand pages, import guide, and a delivery selector for Algeria's 58 wilayas with WhatsApp quote requests.

Driver Mobile App | React Native, Node.js, Express, MongoDB, Google Maps API | Academic project

- Developed the backend and CRUD APIs, plus supporting front-end pages, for a mobile app that helps drivers locate exact destinations using Google Maps and other APIs.

EDUCATION

Master's Degree (Master 1/2) — Systems Engineering and Web Technologies | Yahia Farès University of Médéa 2023 – 2025

- Dissertation: Design and Development of a Psychological Assessment Tool Based on LLM Agents.

Bachelor's Degree (Licence) — Computer Systems | Yahia Farès University of Médéa 2023
